

CEDIFOR CLARIN-D

Resource Deposition Request Form

Purpose of this form

Resource owners or authorized representatives who intend to add resources to the CEDIFOR CLARIN-D Center Repository have to provide basic information about the resources to be uploaded. Based on this information, the repository owners decide whether or not it is possible to add the resource.

Information about the Resource

The resource that should be added into the repository is:

- a tool
- a data resource
 - a textual resource (e.g. collection of texts)
 - a pictural resource (e.g. collection of images)
 - an audio resource (e.g. collection of audio files)
 - an video resource (e.g. collection of video files)
 - an multimodal resource (e.g. collection of different file types)
 - something else: _____

- something else: _____

The resource was created in the scope:

- a research project
 - Name: _____
 - Website: _____

The resource

- was reviewed as part of a review process (please submit these publications in PDF format).
- is widespread in one or more research communities:

- is in another context:

The resource itself or access to the resource is provided via:

- established/standardised interfaces/protocols/formats (please attach list of these standards)
- proprietary interfaces/protocols/formats that are very well documented (please provide documentation in PDF format).

The complete size of the resource is in total: _____

Information on available metadata

Metadata are available or will be provided in:

- CMDI format (please specify a list of profiles/components stored in the CLARIN component registration) *preferred*.
- standardized format(s) (please specify a list of formats)
- proprietary format(s).

The access to the metadata is:

- Available for Public Use (100% free)
- restricted (will not be accepted)

Please submit an example set of metadata in the preferred CMDI format.

Access permissions

Access to the resource itself is:

- Available for Public Use (100% free)
- research / academic use only
- restricted (will not be accepted)
